Tools & Practices	Git, GitHub, Postman, VS Code, Vercel, Clean Code, Modular Architecture, Agile/Scrum

PROFESSIONAL EXPERIENCE

Frontend Developer | PT Thunder Labs Indonesia
Nov 2025 – Oct 2026 • East Java, Indonesia

- Developed and optimized application interfaces with a focus on performance, scalability, and clean code.
- Integrated REST APIs between user interfaces and backend systems.
- Collaborated with the development team to deliver intuitive and consistent user experiences.

Flutter Developer | PT Integrasi Data ERP (IDE)
Jan 2025 – Apr 2025 • Indonesia

- Developed Flutter-based mobile applications integrated with an enterprise resource planning (ERP) ecosystem.
- Implemented modular state management and connected application modules to ERP backends through REST APIs.
- Helped maintain reliable transaction flows and consistent data presentation in the application interface.

Programmer | PT. ARSOFT SOLUSI TEKNOLOGI
Apr 2024 – Sep 2024 • Surabaya, East Java

- Contributed to the software development lifecycle, module design, and system maintenance.
- Built features based on user requirements and performed debugging and workflow optimization.
- Worked with the technical team to meet sprint targets and complete features.

Associate Mobile Developer | Radya Labs Teknologi
Jan 2023 – Jun 2023 • Bandung, West Java

- Worked in a mobile development team using Flutter and Agile daily sprint practices.
- Implemented user interface components and completed assigned tasks under senior team guidance.

Programmer (Internship – BS CI) | Seven Inc.
Jul 2021 – Oct 2021 • Bantul, Yogyakarta

- Developed web features using the Laravel (PHP) framework.
- Collaborated with the team, shared tasks, and implemented modules according to specifications.
